Dear Mr. McDougall,

We are in receipt of the Notice of the Board dated today in respect of the Multi-Channel Subscription Satellite Radio Services tariff proceedings.

As the Notice contains certain commercially sensitive confidential information respecting a uncertified single-user tariff applicable to a publicly traded company, Sirius XM Canada Inc. respectfully requests that it not be made publicly available in its current form. For your consideration, we enclose a version of the tariff that redacts the commercially sensitive confidential information.

Sirius XM Canada Inc. would also request that all recipients of this morning's Notice please limit its disclosure to their clients, and advise their clients that the information that has been redacted is confidential in nature and should not be further disseminated until the Tariff is certified.

For clarity, Sirius XM Canada Inc. does not object to the Board providing an unredacted version of this morning's Notice to the Hotel Association of Canada so that it may assess its position, as long as the Hotel Association is apprised of the commercially sensitive confidential nature of the Notice and is required to advise its members that the information that the Notice is confidential in nature and should not be further disseminated until the Tariff is certified.

Please let us know if you have any questions or concerns about the request of Sirius XM Canada Inc.
