[CB-CDA 2017-002]

ORDER OF THE BOARD

On June 7, 2016, in Notice 2016-047, the Board indicated to the Parties that:

The Board is of the preliminary view that a study should be done jointly by the Parties on the use of the music repertoire of each collective society. The Board will communicate with the Parties shortly for the purpose of establishing such a study and examining whether the Schedule of Proceedings need to be adjusted.

Since that time, the Board has been informed by the Parties on several occasions that they are jointly discussing such a study, and would attempt to jointly propose a methodology to the Board.

However, it is now more than 6 months later, and the Parties have not yet submitted any such proposal. Therefore, the Board hereby orders the Parties to submit a detailed update on their discussions of a joint study on the use of music repertoire of each collective society and an identification of any outstanding issues. The update is to include issues or elements of a study on which the Parties agree, as well as those issues or elements of a study that have been identified, but on which there is not an agreement among the Parties.

The Parties shall respond by **Wednesday, January 11, 2017**. If they so choose, the Parties may file their response jointly.
