### **RULING OF THE BOARD**

On June 15, the BDUs and Stingray (the "Objectors") received the Collectives' responding submissions and evidence with respect to revenue allocation. In addition to a responding report from Mr. Alan Mak, the Collectives' submissions included a statement from a witness, Mr. Rob Young.

On June 26, 2018, the Objectors requested leave to file rebuttal evidence from several of the BDUs to address and correct what the Objectors characterized as "factual misstatements and inaccuracies" contained in Mr. Young's evidence.

The Collectives made submissions on this motion on June 29, 2018, and the Objectors replied thereto on July 6, 2018.

Having considered the submissions of the Parties, the Board concludes that it does not currently require additional submissions on the issues raised by the Objectors in their June 26 request.

The Board will inform the Parties if this status changes during the course of its consideration of the proposed tariffs in this proceeding.
